Officer (All Districts)

Clarification regarding registration of a person having done MBBS and MD (Tuberculosis & Chest Diseases) South District to conduct echocardiography of Tuberculosis and chest disease patient under PC & PNDT Act.

Madam,

In view of the representation of Dr. Raj Kumar Mukund Singh, MD, TB & Chest, seeking PNDT registration for conducting Echocardiography of TB & Chest Disease patient. Under the PNDT Act, it is hereby clarified that all the specialties other than MD/DNB in Radio/Obstetrics should be allowed to undertake Ultrasound & can use Ultrasound equipments/ Echo machines in their concerned specialized fields if the Ultrasound Equipment is required in that specialized field.

"They however need to be registered with the PNDT & submit a self explanatory affidavit specifying that the use of Ultrasound would be for so & so purposes and not for ANC checkups."

This affidavit needs to be submitted with their application for PNDT Registration. However they may not be permitted to carry out ANC Ultrasound.

All the Districts are hereby clarified regarding the above matter & are directed to disseminate this information to all stakeholders.

They are further directed not to repeatedly ask further clarification on this issue.

(Dr. Pratibha Nanda)
SPO, PC & PNDT Act
